

Infraburo (Pty) Ltd is a dynamic company providing engineering services of excellent quality to clients and communities.

### **Making the Difference, Going All the Way**

Infraburo, a consulting civil engineering firm, was founded in March 1997, specializing in the design, construction supervision and management of civil engineering infrastructure projects such as municipal and rural water distribution, sewer reticulation and sewerage purification, roads and storm water as well as solid waste management.

Infraburo was founded with the mission of being a consulting engineering firm small enough to afford personal involvement from its directors and associates, not only on all its projects, but also to maintain direct personal contact with clients. It is firmly believed that this approach will enable Infraburo to deliver a dynamic service to clients, with the added assurance that their interests are well looked after.

### **Emphasis on South Africa**

Infraburo is committed to play a leading role in the development and improvement of living standards of all South Africans.

### **Mission**

To provide better living conditions through empowerment and upliftment of our communities.

### **Employment Equity**

Following the South African Government's employment equity policy, Infraburo acknowledges equal opportunities in the workplace with evidence of 51 percent shares owned by HDI's.

The company also invests in educational development programs for existing and future members of the firm, as well as prospective students from all sectors of the SA Community.

### **Directors:**

RJ Dippenaar (Chairman); RR Netshampofu (Managing Director); JO Priem; WS Smit; JW Venter

### **Associate:**

E Hammann (Hons B Compt (Unisa)(Financial Manager)
